in this incisive abundantly illustrated study julie wosk explores for the first time how the visual arts reflected the explosive psychological impact of the industrial revolution on english and american society wosk reveals the ways artists and designers responded to the hopes and fears for the first industrial age and how their work continues to illuminate our own visions of technology and culture wosk also reveals the striking ability of artists to capture the drama and the dangers of the new technologies seen in their images of factories spewing smoke steam boilers bursting trains crashing and satiric views of people turned automatons their art dramatically mirrored widespread feelings of disorientation the phenomenon sociologists have called breaking frame wosk demonstrates the startling impact of new technologies on the decorative arts and industrial design working with manufacturers artists added ornamentation to machinery and helped fulfill the middle class demand for factory made copies of decorative objects even as art critics debated the aesthetic and social consequences of these imitative versions of original works of art she also highlights how artists responses to a world newly transformed by technology prefigure the fear and pride resistance and accommodation to technological achievement that are still felt over a century later

a study that explores the complex relationship between nationalism traditionalism and the critique of modern culture in france in the decades preceding the first world war coinciding with the explosive challenge to established forms and subject matter in the visual arts promoted by avant garde circles in paris conservatives attempted to reassert values ostensibly rooted in the character and culturalgenealogy of the french nation this anti modernist reaction was promoted by nationalist critics and political theorists who sought to salvage french culture as part of a broader project that challenged liberal democratic institutions put in place under the third republic neil mcwilliam s study analyses the various fronts on which this attempted cultural counter revolution was pursued from art production and art criticism to the ways in which different

histories produced during the period attempted to define what was distinctively french about the nation s art from the middle ages to the modern period the book offers the first comprehensive overview of nationalism s impact on pre war french art which it complements with synthetic studies of three figures affected by these political and artistic debates the painters maurice denis catholic revival and emile bernard renaissance française as well as the critic joachim gasquet action française in such a way the book goes beyond previous accounts to highlight contradictions and complexities in pre war artistic discourse that enrich our understanding of the ideological stakes involved in clashes over modernity tradition and identity in pre war france
