fear grips those who doubt that their existence has meaning and the prevailing notion that humans are situated on a dot in the middle of a dark cold universe leaves people shivering in cosmic insignificance many would argue that science and technology have separated individuals from god while others would say that people have lost their faith and some would assert that god is dead many simply do not know what to believe today s self help industry is a testament to the search for meaning in an age of uncertainty and faltering religious structures the truth is that technology and science now answer many of the questions that used to be left to god this development has
